 Volume XXIII, 1938-39

Exact titles appear in capitals and small letters; subject titles in all capitals. Titles of books are in quotes; authors of books appear in parentheses after the titles with the reviewer following the semicolon. The location of each contribution is given by two numbers, the first one indicating the number of the volume (the issues are numbered 1 to 8 from September-October through May consecutively) and the second one indicating the page. In instances where the magazine appeared in two parts there are three numbers, the middle one of which indicates either Part I or Part II.
